Location

The North Seaton Industrial Estate lies to the south-east of Ashington town centre and within 1 mile of the A189 spine road.

Newcastle lies approximately 15 miles to the south and the A1/A19 trunk roads approximately 8 miles.

Description

This recently refurbished former factory has been subdivided to provide a series of small units ideally suited to trade counter uses because of their prominence, but equally suitable to more traditional workshop and storage uses. Already, Howdens have been attracted to the scheme and Screwfix are located nearby along with B&M Homestore.

The units are of traditional steel portal frame construction with brickwork/blockwork walls, which have recently been over-clad in profile steel sheeting to the external elevations, all under a double pitched roof of insulated corrugated asbestos cement sheet covering.

Internally the units have concrete floors throughout and a clear height of 3.0m to the haunch and 5.0m to the apex.

Externally there is also a secure fenced yard around the block, which also provides vehicle access. Each unit has a manually operated insulated sectional loading door each 4.0m wide x 3.0m high.

Services

The units benefit from individual water supplies and sub-metered 3 phase electricity supplies.

Lighting throughout is by way of LED fittings.
